

NANTUCKET COMMUNITY SAILING CLEAN HARBOR AWARD

In 2010, as part of its initiative to achieve a “green” Nantucket Race Week, Nantucket Community Sailing (NCS) introduced the concept of a Clean Harbor Award. A committee of four: Jean Grimmer (chair), Dual Macintyre, Martin McKerrow and Allen Reinhard met several times last year in the late spring/summer to discuss the more than fifteen Nantucket organizations that were actively working to make a difference to the cleanliness of the harbor.

Ultimately we concluded that all those organizations should be recognized for their efforts. Thus, on August 14, the first Saturday of Race Week, the island organizations were invited to the Nantucket Yacht Club to receive a citation of commendation appropriately signed and framed by NCS.

The Clean Harbor Committee has begun its deliberations on for the 2011 Race week and will be inviting organizations, or individuals, to apply for the award. The criteria will be published in June with applications, or nominations, due by mid July.
